Cleansing Scheme For Businesses

Dear Colleague

The BID will be launching a new cleansing scheme in the following weeks. This will involve a local cleansing company (CDS) being contracted 1-2 days a week to work on behalf of the BID.

The work they will be tasked to do is for you and on behalf of you to make Mansfield even cleaner and brighter than at present.

This is by no means a contract to complete any work Mansfield District Council should be doing, and will only be work above and beyond the baseline agreement the BID has with Mansfield District Council.

Over the next few weeks you will see CDS out in action looking at initial priorities that have already come to our attention.

However we are keen to generate even more work and we can only do this with feedback from you.

The possible work they are able to do can range from any of the following:

- Deep Power Wash Cleans
- Chewing Gum Removal
- Shop Front Cleans
- De-greasing
- Maintenance work such as painting
- Large rubbish / litter removal
- Gritting

The BID team would like to hear from you if you have any areas you feel need that bit of extra care and clean. We will then prioritise these and task CDS.

Please either email the BID team at enquiries@mansfieldbid.com or speak to one of the BID ambassadors.

We look forward to hearing from you

The BID Team
